**THANK YOU FOR VISITING US AT MEE 2019**

## We are the 1st Perkins Engines Electric Power Self Service OEM

At Middle East Electricity Exhibition 2019, Perkins Engines has presented Jubaili Bros with a special plaque recognising its appointment as Perkins first electric power self service OEM.

## Launch of the new Perkins 7-litre 1206 series engines

1206 series engines are designed with an aim to deliver high power density with reduced operating costs and market-leading performance. The 1206 engine leverages the latest technology to draw maximum power from a smaller package. It's part of a triple launch of new engines to deliver a significant uplift in power density to the booming Electric Power (EP) sector. The 1206 has 20 per cent improved power density and is 22 per cent lighter than the existing 8.8 litre 1506 platform and it produces 200-275 kVA. From a smaller package size, the same power is delivered with a positive and direct impact on the bottom line of EP customers.

## NEW BRANCH OPENING - NIGERIA

Jubaili Bros expanded operations in Nigeria by opening a new branch in Ajah, Lagos. This allows for increased stock of Generators and related Power Solutions, which in turn, guarantees to satisfy the market demand and customer needs.

### JUBAILI BROS: A VALUE ADDED PARTNER FOR HUAWEI

In celebration of the Chinese New Year, Jubaili Bros Solar during the World Future Energy Summit has officially become a Value Added Partner for Huawei FusionSolar covering multiple countries in the Middle East and Africa. We appreciate being entrusted by Huawei to represent them, and are committed to make an impact as a reliable partner for all our clients.

### SOLAR TRAINING LEBANON

Jubaili Bros conducted training sessions, covering 'Solar Hybrid System Designs' for various prestigious consultants in Lebanon. The 4 days event included more than 30 participants from Pierre Damous & Partner, Khatib & Alami, Laceyco, Sert, Sets, Arch and Spectrum.

### HUAWEI TECHNICAL TRAINING IN PAKISTAN

The Jubaili Bros Solar team, in partnership with Huawei Fusion Solar organized 2 technical seminars in the month of March, one in Karachi on March 12th and in Lahore on March 17th. We had the opportunity and pleasure to speak with local EPC's and learn a lot about the local market and how we can contribute to the growth of it.

### JUBAILI BROS SOUTH AFRICA : EDUCATING YOUNG MINDS

Jubaili Bros SA (PTY) Ltd had the unique opportunity to host the first initiative alongside FUTUREBIZ; engaging young minds in the ever growing South African market. Our goal was to educate pupils from various schools about the day to day life of a company which specializes in a wide variety of subjects such as Management, Human Resources, Accounting, Technical Support, Marketing & Administration within the business contexts. We spent the day informing students about the potential for development in South Africa and the opportunities the market has to offer.

### TRAINING : PERKINS 1100 & 1500 ENGINES SERIES

Jubaili Bros UAE hosted a technical training including hands on experience for Perkins 1100 & 1500 engine series along with Leroy-Somer, Socomec and Synchronizing solutions. Trainer Bilal Nassab provided this intensive 5 days training to 12 participants comprising Jubaili Bros employees and customers from different countries.

### RECENT PROJECT GEEPAS TOWER

Jubaili Bros recently supplied, tested and commissioned 1 Unit x 1000kVA Diesel Generator set, for one of the residential buildings in UAE – GEEPAS Tower. Being a Self Service OEM of Perkins Engines, Jubaili Bros is the perfect choice for your Power needs.

### RECENT PROJECT THE HEART OF EUROPE

Construction camps and commercial offices situated on a cluster of man-made luxury islands in Dubai can now access all the power they need, thanks to a professional and dependable installation of 17 Perkins-powered generators sets by Jubaili Bros.
