

NEWSLETTER

IMPROVING ITS COMMUNICATION, PRESENCE AND INTERACTION WITH CUSTOMERS, JUBAILI BROS (ENGINEERING) LTD. NIGERIA, PARTICIPATED AT VARIOUS EXHIBITIONS.

SOLAR SEMINAR

Jubaili Bros Solar, in partnership with Huawei and Lumax Energy, organized a full day product introduction seminar in Dubai, UAE. The event included a presentation of the Huawei Fusion Solar Smart PV Solution, Lumax Energy Mounting Structure and an interactive Q&A session at the end.

SOLAR TRAINING

Jubaili Bros Nigeria and Canadian Solar, collaborated for the "PV Installer" training sessions (level 1 and 2) for various attendees including clients, PV installers and distributors.

CSR INITIATIVE - BANGLADESH

Responding to a call to support one of the best CSR initiatives in Bangladesh, Jubaili Bros donated to the “We demand Safe Roads” which supported 25 individuals to attend driving school to get their driver’s license. This project aims to establish safe roads in Bangladesh and was executed in collaboration with one of our Bangladeshi dealers.

CSR INITIATIVE - DUBAI

Giving back to the community, Jubaili Bros sponsored the distribution of 500 care packages to Labour camps at Al Quoz area, Dubai. The care packages included food items and some essential personal hygiene products. It was a small deed for the people who work hard in all conditions, improving the look of Dubai.

RECENT PROJECTS

Jubaili Bros Solar, South Africa team proudly supplied Lumax mounting structure, Huawei Inverters and panels to an EPC customer for Eureka DIY Solutions Project at Johannesburg, South Africa. The project was a 312kW peak, split into 2 different substations; One 90kW the other 212kW.

Jubaili Bros recently supplied 3 units 135 kVA, 1 unit 230 kVA Generator sets, 6 units DSE 8610 control panels and 1 unit 2000 Amps totalizing panel to one of the prestigious clients in Afghanistan. Supplied items along with 2 units 275 kVA Generators (delivered during Phase 1) and auto fuelling system were synchronized with the Solar on grid system.

HUAWEI SOLAR INVERTERS FACTORY VISIT IN CHINA

On the first week of December, Jubaili Bros organized a trip to China to the Huawei solar inverters production facility in Shenzhen with the top EPC's in UAE. As a value added partner for Huawei, we are committed to be the interface between the regional EPC's, developers and end users and remain a reliable solutions provider.

GHAFF TREE PLANTING PROGRAM

Working together to help the environment, 35 Jubaili Bros employees in the UAE spent a day together planting 50 Ghaff trees. The Ghaff tree, which is the UAE's national tree, is a drought-tolerant, evergreen tree which is a resilient plant that requires little water, it is also good for the soil and environment.
